## WHAT WE DO...

### Our Clients

From audits of regional airports to financial forecasts for airlines, our depth of experience in providing professional services to airports and related aviation industry entities is extensive. We go beyond simply providing you with an audit report and financial statements — we give you the resources that will enable you to make informed decisions related to your operations.

### Our Team

Our Airport and Aviation Industry Services Group combines substantial experience working for regional and local airports with continuous training and research to stay abreast of the latest developments in the industry. We not only provide audit services, but offer personal attention and industry knowledge and resources to meet our clients' needs. We make every effort to provide our clients with the tools and knowledge they request to improve their recordkeeping and management reporting.

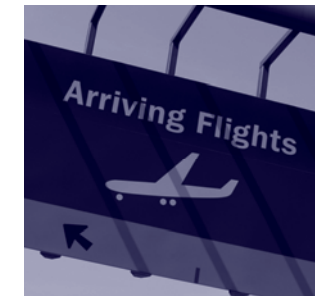

The Airport and Aviation Industry Services Group members assigned to your engagement have a clear understanding of issues affecting the aviation industry today. As a result, we will be available throughout the performance of our professional services engagement to provide insight and training, if necessary, on any topics that may be of interest to management.

### What to Expect

As is the case with all services we perform, we will be available at your convenience to respond to requests by management. We will work closely with your management team to incorporate your ideas into and to answer any questions that may arise during our engagement.

### Our Promise to You

We promise to provide your organization with the highest quality services available in the industry today. Additionally, we pride ourselves in creating an "open door" to our senior level managers and partners, in order for your team to get the answers and advice you need in a timely manner. We pledge to make your concerns our first priority in all services we provide. We believe that exceeding your expectations is the scorecard of our success.
